

## **NCTS Nomination for MSRI Summer Graduate School 2022**

The National Center of Theoretical Sciences (NCTS) Mathematics Division is pleased to call for applications for students who are enrolled full-time at a university or a research institution in Taiwan to attend the Mathematical Sciences Research Institute (MSRI) Summer Graduate School in the summer of 2022. The MSRI is among the most prestigious mathematics institutions in the world and is known to host and organize many conferences, workshops, summer and winter schools of the highest caliber every year. As a full-level member among the MSRI Academic Sponsoring Institutions, at least two nominations of summer school attendees by the NCTS will receive full local support in addition to travel support of up to USD700 from the MSRI.

The 2022 MSRI Summer School consists of a total 13 different schools hosted by MSRI affiliated institutions around the world, e.g., two schools are held in Berkeley and one in the NCTS. More information and details about the 2022 MSRI Summer Graduate School can be found at this link:

<https://www.msri.org/web/msri/scientific/workshops/summer-graduate-school>.

Interested students who wish to apply for one of these schools should submit the following to the NCTS by October 31, 2021:

1. Academic transcripts and a curriculum vitae of the applicant.
2. A letter stating which school the applicant wishes to attend. The letter should also explain more about the applicant's academic background and indicate the applicant's expectation of academic benefits from attending this school.
3. List of two references of faculty members (with names, affiliations and email addresses) familiar with the applicant's scholastic achievements.

All the files should be sent to [apply2@ncts.tw](mailto:apply2@ncts.tw).
